DETAILED ACTION

(1). Applicants' Remarks, Oath and Amendments filed on April 20, 2006 have been received and acknowledged.

Claims 12,13, 22, 38, 44, 51, 55, 56 are amended.

Claims 1-11, 31-37, 50 are previously canceled.

The 112 2nd paragraph rejections for claims 22-30 and 56 in the prior Office Action dated December 20, 2005 is withdrawn in response to the Applicants' Amendments filed on April 20, 2006.

However, the rejections of claims 12-30 and 51-56 in the prior Office Action dated December 20, 2005 are sustained.

Claim Rejections - 35 USC § 102/103

(2). The text of those Section Title 35 U. S. Code not included in this Office Action can be found in the prior Office Action dated December 20, 2005.

Claims 12-30, 52-56 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Kusakabe et al (US005986014) for the same rationale recited in prior Office Action dated December 20, 2005.

Claim 51 is rejected under 35 U.S.C. 102(e) as being anticipated by Kusakabe et al (US005986014) for the same rationale recited in prior Office Action dated December 20, 2005.

Allowable Subject Matter

(3). Claims 38 - 49 are allowed.

Response to Arguments

Applicant's arguments filed on April 6, 2006 have been fully considered but they are not persuasive.

(4). Applicants argue that the prior art reference of Kusakabe et al (US005986014A) does not disclose the alkenyl group according to the formula (1) claimed by applicants where oxygen

Art Unit: 1713

atom is directly bonded to a carbon atom having R^1 , R^2 derived from the group bonded to a vinyl group of vinyl monomer, or the structures according to formula (5) and (6) as presently claimed, in which a carbon group having an electron-withdrawing group (at least one of R^6 and R^7) is directly bonded to a carbon atom having R^1 , R^2 derived from the group bonded to a vinyl group of vinyl monomer. However, the formula (1) of claim 12, in which the R^1 and R^2 can both be hydrogen (not a univalent organic group derived from the group bound to a vinyl group of a vinyl monomer) so that the partial structure of formula (2) of Kusakabe et al (US005986014A) meets the requirements of the claim 12. Same condition applied to the R^1 and R^2 of formula (5) and (6).

(5). Applicants' Statement of Common Ownership indicates that both the application and U.S. Patent 5986014 are commonly owned by Kaneka Corporation at time the invention of this application was made. However, the rejection is in effect an obviousness-type rejection under 35 USC 103 (C), because according to MPEP 2146, Effective November 29, 1999, subject matter which was prior art under former 35 U.S.C. 103 via 35 U.S.C. 102(e) was disqualified as prior art against the claimed invention if that subject matter and the claimed invention "were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person." Here, both the filing date and date of patent of prior art - Kusakabe et al US005986014A are before the November 29, 1999. Therefore, the OATH will not affect the ground of rejection in the prior Office Action dated December 20, 2005.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1713

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
